Suicide touches the lives of millions of people in our country each year. Suicide is the 11<sup>th</sup> leading cause of death in the United States, more than by homicide, and it is the leading cause of death among those ages 15-24. Last month, September, marked National Suicide Prevention Month, but each month it important to set aside time to raise awareness about suicide prevention, to remember loved ones who died by suicide, to recognize the millions of people who experience suicidal ideation, and to share a message of hope.

Here at United Church of Canistota we remember those who have died by suicide, we bear one another’s burdens (Galatians 6:2) by caring for and supporting their friends, family, and co-workers, and we share a message of God’s love, hope, and grace (1 John 4:7). Through a common commitment to our mission of “Experiencing and Sharing Life in Christ,” we name the difficult realities of life and trust in God’s mercy and compassion as we care for one another.

I encourage you familiarize yourself with suicide prevention resources available from the organizations below:
